Submission Existence & Delivery Verification

This document fixes the existence and delivery of an online submission made on 16 July 2025.

Date of submission: 16 July 2025
Prepared for record preservation purposes.

Evidence of Submitted File Existence

A file sized approximately 3.1 MB existed and was finalized on 16 July 2025.

File indicators:
• File size: 3.1 MB
• Last modified date: 16 July 2025
• File context: Human Rights submission (documents-only compilation)

This establishes that a complete submission file was present prior to the automated confirmation.

Automated Delivery Confirmation

The following excerpt is taken from an automated system-generated confirmation message acknowledging receipt of the online submission:

“We confirm we have received your online form and will respond as soon as we can.”

Confirmation details:
- Issued by: Te Kahui Tika Tangata Human Rights Commission
- Timestamp: 16 July 2025, 23:18 (local time)

This confirmation records successful delivery of the submission made earlier on 16 July 2025.

Integrity Verification

To support future reference and integrity checking, a cryptographic hash of the submitted file set is recorded below.

Hash algorithm: SHA-256

ea5047d7c51a204e4fff97889896c0c6792f334825e19542b603c8fff9e23797

This hash value is provided for verification purposes only. No interpretive or legal claims are attached.

Submission Timeline Summary

• 16 July 2025, ~23:00
An online submission was completed via official webform. The submitted file set had a total size of approximately 3.1 MB.

• 16 July 2025, 23:18
An automated system-generated confirmation email was received, acknowledging successful receipt of the online form.

This document records submission existence, delivery confirmation, and integrity markers only. No analysis, conclusions, or claims are made.

Record-Surface Observations

1. Transmission vs. Visibility Pattern

This table compares recorded transmissions to the New Zealand Human Rights Commission (NZHRC) against the items visible in the output package provided on 8 August 2025.

Transmission Date / Time (2025)	Method	Filename & Identifier	Visibility in Output (as of 8 Aug 2025)
16 Jul, 11:47	Email	HumanRights_ Submission_ Compiled.pdf (Unique hash)	Not visible (from 9p, 90p, and ZIP)
16 Jul, 12:53	Email	HumanRights_ Submission_ DocumentsOnly.pdf	Visible as a single consolidated instance in ZIP (multiple transmissions not separately distinguishable)
16 Jul, 21:57	Email	HumanRights_ Submission_ DocumentsOnly.pdf	Visible as a single consolidated instance in ZIP (multiple transmissions not separately distinguishable)
16 Jul, 23:00	Webform	HumanRights_ Submission_ DocumentsOnly.pdf	Not visible (from 9p, 90p, and ZIP) (no surface-level record)
26 Jul, 19:50	Email	HumanRights_ Submission_ DocumentsOnly.pdf	Visible as a single consolidated instance in ZIP (multiple transmissions not separately distinguishable)

2. Message Routing Pattern

This table tracks discrepancies between sender addresses observed in the live email inbox and those recorded in the official 90-page observable output.

Date (2025)	Communication Item	Sender Address (Live Inbox View)	Sender Address (90-Page Output)
16 Jul, 23:18	Auto-confirmation (Webform)	infoline@ tikatangata.org.nz	Not visible
28 Jul	Staff email	Staff@ tikatangata.org.nz	Not applicable
31 Jul, 14:47	Case closure email (1)	infoline@ tikatangata.org.nz	infoline@ hrc.co.nz
31 Jul, 16:01	Case closure email (2)	infoline@ tikatangata.org.nz	infoline@ hrc.co.nz

3. Date Representation Pattern

• Differences in date presentation are observable across outputs dated 8/8.

• In a 9-page set of materials, the same initial webform submission is presented with different dates:

– 16/7 in the main narrative, and

– 17/7 for the same entry in the appendix section.

• By contrast, in a 90-page set of materials, the same content is not presented under a discrete date of 17/7, but is instead included within a grouped date range of 16/7–31
